TECHNOLOGY MUSEUM

Ancient Greek technology: A unique exhibition refers to the prehistoric period, till the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context, as well.

Transportation technology: This part of the museum features car models that marked the history of automobile. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

Techno-park: An interactive exhibition, where you will actively participate and learn while having fun. It includes 50 exhibits, concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

IDEA TEMPORARY EXHIBITION - *until June 2017*

Temporary exhibition about the advancement of Greek thought which created many scientific fields, while at the same time attained plenty of technical and technological achievements.

PLANETARIUM (for adults and children 5 and older)

The Zula Patrol - Down to Earth: Learn about the formation and development of Planet Earth, and the life forms who call it home. A cartoon suitable for younger children. **Duration: 25'**

From Earth to the Universe: This stunning voyage through space and time conveys the Universe revealed to us by science. **Duration: 35'**

Oasis in space: A journey of searching life in the Solar System. **Duration: 25'**

Astronomyths: Discover the magic of the night sky, through the myths hidden in the stars. **Duration: 25'**

COSMOTHEATER (for adults and children 5 and older)

Dragons – Real Myths and Unreal Creatures (3D): NEW FILM The show uses the mythology of dragons to immerse viewers in a rich and entertaining mix of history, cultures, geography, art and literature. **Duration: 40'**
