TECHNOLOGY MUSEUM

Ancient Greek technology: A unique exhibition refers to the prehistoric period, till the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context, as well.

Transportation technology: This part of the museum features car models that marked the history of automobile. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

Techno-park: An interactive exhibition, where you will actively participate and learn while having fun. It includes 50 exhibits, concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

IDEA TEMPORARY EXHIBITION - *until June 2017*

Temporary exhibition about the advancement of Greek thought which created many scientific fields, while at the same time attained plenty of technical and technological achievements.

HARNESSING LIGHT TEMPORARY EXHIBITION- *until June 2017*

The story of photography and its main aspects are presented in the exhibition **Harnessing Light** which takes place on the occasion of presenting the "Meletiou Collection" comprising of 120 classic cameras.
