TECHNOLOGY MUSEUM

Ancient Greek technology: A unique exhibition refers to the prehistoric period, till the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context, as well.

Transportation technology: This part of the museum features car models that marked the history of automobile. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

Techno-park: An interactive exhibition, where you will actively participate and learn while having fun. It includes 50 exhibits, concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

“CHINESE TECHNOLOGY” TEMPORARY EXHIBITION

The temporary exhibition “**Ancient Chinese Science and Technology**” will introduce to the Greek public some of the remarkable technological achievements of the Chinese civilization, which is one of the most ancient. The exhibition is organized in cooperation with **China Museum of Science and Technology in Beijing**.

PLANETARIUM (for adults and children 5 and older)

Two small pieces of glass: The show explores the evolution of telescope technology from Galileo's experiments to the HST and beyond. **Duration: 25'**

Out There: Nowadays we are able to explore more and more of the Universe. What we have found so far has surpassed even our wildest expectations. A huge diversity of different worlds is out there, just waiting to be discovered. **Duration: 35'**

The Zula Patrol 2: An animated film suitable for younger children. Learn about the formation and development of Planet Earth, and the life forms who call it home. **Duration: 25'**

From Earth to the Universe: This stunning voyage through space and time conveys the Universe revealed to us by science. **Duration: 35'**

Christmas Star: What exactly was that “Star”? The show looks into some of the most popular issues about the unique cosmic phenomenon, which led the 3 wise men to the newly born Christ. **Duration: 35'**

COSMOTHEATER (for adults and children 5 and older)

Dream Big (3D): The movie celebrates the human ingenuity behind engineering marvels big and small, and reveals the heart that drives engineers to create better lives for people around the world. **Duration: 40'**

Dinosaurs – The Giants of Patagonia (3D): Dinosaurs come to life before our eyes, on the gigantic screen of the Cosmotheater. **Duration: 40'**

SIMULATOR 3D (for adults and children 7 and older, at least 1.20m tall)

Moon Thunder (3D): Join our astronaut crew in this thrilling escape from the collapsing surroundings of the moon base. Will you reach the escape pod in time? **Duration: 5'**

Catacombs (3D): Paris 1850. On a rainy night you find shelter into its dark Catacombs. Find out if you can keep your cool in this thrilling experience. **Duration: 5'**

All movies are in Greek. Headphones with narration in English are available.

NOESIS schedule is subject to change.
