# TECHNOLOGY MUSEUM

## Ancient Greek technology

A unique exhibition referring to the prehistoric period, until the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context as well.

## Transportation technology

This part of the museum features car models that marked the history of automobile. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

## Techno-park

An interactive exhibition, where you can actively participate and learn while having fun. It includes 50 exhibits concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

# TEMPORARY EXHIBITIONS

## Temporary shadow art exhibition

**GENESIS** until 30/6/2021

What we see isn't always what we're looking at. Impressive shadows are created by mysterious shapeless sculptures, leading you to a place where light "draws" on walls. See things that cannot be seen in this visual exhibition. From 10 years old to adults.

## Movies' duration

The movies' duration is approximately 35 minutes in the Planetarium, 50 minutes in the Cosmotheater and 10 minutes in the Simulator.

## Reservations
