PLANETARIUM

NEW Space Opera

The discovery of a flying disc beneath the earth allows passengers to take off from the Earth and visit an entire solar system. The journey in SpaceOpera is designed and harmonized entirely with Gustav Holst's The Planets, Op. 32, which is one of his most beloved and admired works.

From 12 years old to adults

NEW Earth's climate

Earth's place in the Solar System provides the right conditions for the growth and evolution of life. But these conditions are not given and they have been altered during our planet's history. In the show, the factors that shape the ever-changing weather and climate of our planet are presented.

From 9 years old to adults.

NEW Europe's cosmic quest

Discover some of the most exciting robotic space missions of the European Space Agency (ESA), as they uncover mysteries of our own Sun and the farthest reaches of the Universe. Learn about highly successful missions like Planck and Athena, exploring the electromagnetic spectrum from microwaves to gamma rays.

From 12 years old to adults.

Out There

What we have found exploring the Universe so far has surpassed even our wildest expectations. A huge diversity of worlds is out there, waiting to be discovered.

From 10 years old to adults.

Astronomy myths

Discover the magic of the night sky, through the myths hidden in the stars.

For both primary and secondary school level.

From Earth to the Universe

This stunning voyage through space and time conveys the Universe revealed to us by science.

From 10 years old to adults

NEW Magic globe

Join little Mia in her engaging story trying to save 4 seasons and earth's climate.
From 5 to 12 years old.

The blind man who could see the stars

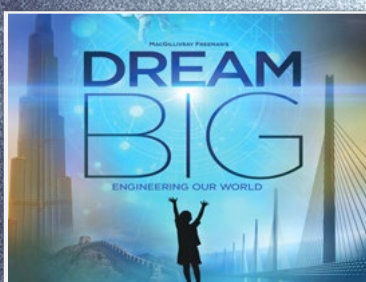

A tale about the blind wise old man that has a lot to teach about the sky, stars, friendship and the meaning of life.
From 5 to 7 years old.

COSMOTHEATER

NEW The great journey 2D

The film tells the story of how an astronomer sees the world around him, how he approaches it through the historical realm of science and how this world is captured on the basis of modern scientific evidence.
For all audiences.

Dream big 3D

The movie celebrates the human ingenuity behind engineering marvels and reveals the heart that drives engineers to create better lives for us all.
For all audiences.

Dinosaurs – The Giants of Patagonia 3D

Dinosaurs come to life before our eyes, on the gigantic screen of the Cosmotheater.
For all audiences.

SIMULATOR 3D

(from 7 years old and at least 1.20m tall)

Catacombs

Moon Thunder

The Wall of China

Aquaride

Magic Carpet

The goal of our “edutainment” simulator venue is to offer a range of experiences that the whole family can enjoy.

TECHNOLOGY MUSEUM

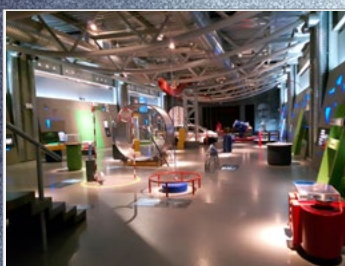

Ancient Greek technology

A unique exhibition referring to the prehistoric period, until the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context as well.

Transportation technology

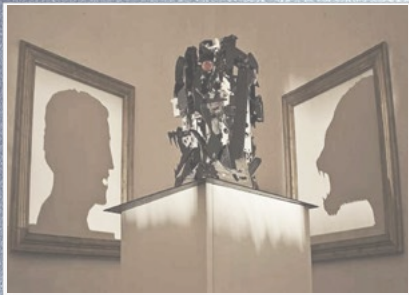

This part of the museum features car models that marked the history of automobile. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

Techno-park

An interactive exhibition, where you can actively participate and learn while having fun. It includes 50 exhibits concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

TEMPORARY SHADOW ART EXHIBITION

Genesis

until 30/6/2022

What we see isn't always what we're looking at. Impressive shadows are created by mysterious shapeless sculptures, leading you to a place where light "draws" on walls. See things that cannot be seen in this visual exhibition.

From 10 years old to adults.

INFO

Movies' duration

The movies' duration is approximately **35 minutes** in the Planetarium, 50 minutes in the Cosmotheater and 10 minutes in the Simulator.

Reservations

For group visits you should make a reservation in advance: Tel. 2310 483 000, extension 2

From Monday to Friday, hours 9.00 – 13.00

The group must arrive at NOESIS 30 minutes earlier than the scheduled activity.

For the Simulator no reservations can be made and the groups are being served on a priority basis.

NOESIS is taking into consideration the governmental instructions both about the operation of museums as well as the measures that are issued for schools, ensuring that its educational activities are carried out in accordance to the applicable directives. The safety and health of the visitors, associates and staff is **NOESIS'** top priority and defines the institution's framework for the implementation of its programs, expecting everyone to respect and embrace it. All participants' personal data is strictly confidential. Personal data protection is according to GDPR regulations.
