

TECHNOLOGY MUSEUM

Ancient Greek technology: A unique exhibition dedicated to exquisite technological achievements of ancient Greek civilization from the prehistoric period to the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context as well.

Transportation technology: This part of the museum features car models that marked the history of automobility. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

Techno-park: An interactive exhibition, where you can actively participate and learn while having fun. It includes 50 exhibits concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

TEMPORARY EXHIBITION CONNECTED

The possibilities offered by modern technology have radically changed our daily life. "Connected" tries to detect the technological advancements that led to this new reality, point out diverse perspectives and set questions about opportunities and dangers that arise.

PLANETARIUM (for adults and children 5 and older)

Earth's climate: Earth's place in the Solar System provides the right conditions for the growth and evolution of life. But these conditions are not given and they have been altered during our planet's history. **Duration: 25'**

Magic Globe: A little girl Mia walks into an intrigue of her uncle who wants to get rid of the planet's seasons. She realizes the negative consequences of his vision, but Edmund will not give up his plan easily. **Duration: 40'**

Space Opera: An artistic, philosophic, scientific and cinematic experience all at the same time and indeed a unique experience of its kind. **Duration: 40'**
