TECHNOLOGY MUSEUM

Ancient Greek technology: A unique exhibition dedicated to exquisite technological achievements of ancient Greek civilization from the prehistoric period to the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context as well.

Transportation technology: This part of the museum features car models that marked the history of automobility. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

Techno-park: An interactive exhibition, where you can actively participate and learn while having fun. It includes 50 exhibits concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

TEMPORARY EXHIBITION - GAME ON

Game On : An exhibition about the history and evolution of computers, consoles and video games. Visit us and have fun with classic retro video games.
