- *Our program Tuesday to Friday adjusts according to school reservations. If there are no reservations, the screenings above are available. You can find the available screenings for each day on our website.

TECHNOLOGY MUSEUM

Ancient Greek technology: A unique exhibition dedicated to exquisite technological achievements of ancient Greek civilization from the prehistoric period to the Hellenistic and Byzantine period. The exhibition features more than 70 exact replicas of machines that have marked people's lives and set the cultural context as well.

Transportation technology: This part of the museum features car models that marked the history of automobility. The exhibition consists of 5 main thematic areas, based on 5 top car models of the 20th century: mass production, city and environment, technological advances, design and society and speed.

Techno-park: An interactive exhibition, where you can actively participate and learn while having fun. It includes 50 exhibits concerning a variety of scientific topics, like electricity, magnetism, vision, mechanics, etc.

Technology - the tools that changed the world: An exhibition, aiming to showcase the importance of technology in our lives, through its history and evolution. Interactive tours, multimedia applications, digital media and more than 200 historical exhibits will take the audience on a journey through the magical world of technology.

PLANETARIUM (for adults and children 5 and older)

Touch the Stars: Travel with NASA's heroic robotic spacecraft on an unforgettable exploration of our solar system, from the Sun to the surface of its planets and moons.

Legends of the Enchanted Reef: When their home reef is destroyed, three fish set out on a quest across the polluted ocean to find the "Enchanted Reef" – an underwater haven free from humans.

Wonders of the universe: See through the "eyes" of the space telescope Hubble.

From Earth to the Universe: This stunning voyage through space and time conveys the Universe revealed to us by science.

COSMOTHEATER (for adults and children 5 and older)

Life of Trees(3D): Two quirky insects explain the complex processes that happen inside a tree in a fun and entertaining way.

Dinosaurs – The Giants of Patagonia (3D): Dinosaurs come to life before our eyes, on the gigantic screen of the Cosmotheater.

Cities of the Future (3D): A captivating journey into the possibilities and challenges of urban life 50 years from now.

SIMULATOR (for adults and children 7 and older, at least 1,20 m tall.)

Moon Thunder (3D): Join our astronaut crew in this thrilling escape from the collapsing surroundings of a moon base. Will you reach the escape pod in time? **Duration: 5'**

Great Wall of China (3D): This simulator show displays one of the world's miracles: the Great Wall of China. **Duration: 5'**

All movies are in Greek. Headphones with narration in English are available.

NOESIS' schedule is subject to change.
